An aerial photograph of a large, active port. The foreground and middle ground are dominated by a dense line of bright red container cranes (gantry cranes) extending along the waterfront. Several large container ships are docked at the piers, their hulls and decks covered with multi-colored shipping containers. In the lower-left foreground, a white and blue ferry or tugboat is visible. Further out in the dark blue water, another smaller tugboat is moving, leaving a white wake. The background shows a city skyline under a clear blue sky.
