The screenshot displays the 'NORSE' interface, which visualizes network traffic and attacks. The main map shows a global network of nodes and connections. The 'ATTACK TARGET' panel lists countries: United States, Spain, Thailand, Hong Kong, Canada, Portugal, Indonesia, Australia, United Kingdom, and France. The 'ATTACK TYPE' panel lists types: Denial, DoS, Spoofing, and others. The 'ATTACKS' panel shows a table of attack events with columns: Timestamp, Location, IP, and other details. The map shows a high density of connections between nodes in North America, Europe, and Asia.
