The screenshot shows the ZoomEye search engine interface. At the top, there is a search bar with the query 'app:WebRick httpd' and an 'Explore' button. Below the search bar, the results are displayed. On the left, there is a sidebar with filters for 'Search Type' (Public Devices, Web Services), 'Service' (Http, Unknown), and 'Country' (United States, Seattle, Woodbridge, Wilmington, Ashburn, New York, San Francisco, Walnut, San Antonio, Boardman, Aberdeen, Germany). The main area shows 'Found about 4337 results (0.185 seconds)'. Two results are highlighted: one for '38.108.17.210' and another for '38.67.4.29'. Each result shows the version of the application (e.g., 'WebRick httpd 1.3.1'), the location (e.g., 'United States'), and the date (e.g., 'Sept. 11, 2015'). To the right of each result, there is a detailed view of the HTTP response, including the status code (e.g., 'HTTP/1.1 500 Internal Server Error'), content type, content length, request ID, runtime, server version, date, and connection details.
