Security Predictions

Security Predictions for 2019 and Beyond

Clues from 2018

- Cyber hacks of major corporate systems and websites continued apace and will be part of the 2019 cyber security scene.
- Many well-known, international companies and name-brand organizations suffered significant breaches.
- Beyond common corporate attacks, 2018 was marked by accelerated threat activity across a range of targets and victims.

Company	Records Exposed
Equifax	340M
MyFitnessPal	150M
Facebook	30M

States personal records

Nation State attackers remain an active threat against corporate secrets and government infrastructure systems
