ssops, your files have been encrypted!

G

What Happened to My Computer?

Your important files are encrypted.

You have your documents, photos, videos, databases and other files that are irreplaceable to you. Now they are all encrypted. Really, you are just missing the key to recover your files, but don't worry about this. Nobody can recover your files without the decryption key.

Can I Recover My Files?

Yes! You are guaranteed that you can recover all your files safely and quickly. You do have to find out enough time.

You are through some of your files for the time you are clicking "Decrypt".

You are now warned that you are clicking "Decrypt".

You are now told: "I have a key to decrypt the files. But the key might be disabled. You can click "Decrypt" if I add you. You can click "No" to recover your files later."

You can click "No" to recover the files when you are ready or you can click "Yes" to get the key immediately.

How Do I Pay?

Pay with Bitcoin. Bitcoin is a new information, digital, almost invisible. There's never been a Bitcoin scam and Bitcoin has some benefits. For more information, click on the link below.

Pay with Bitcoin. Bitcoin is a new information, digital, almost invisible. There's never been a Bitcoin scam and Bitcoin has some benefits. For more information, click on the link below.
