????????????????????????? ????????? ?????????? ?

A group of people are playing a card game at a casino table. The table is covered with a green felt featuring yellow and red markings, including the word "CASINO" and "PUSH YOUR CHIPS". A man in a tuxedo is dealing cards. A woman in a red dress is holding a fan of cards. Another woman is holding a glass of champagne. The scene is dimly lit, typical of a casino environment. A large, semi-transparent watermark is visible in the center of the image.

And, these commands can be used on any system.

```
localhost> ls
```

Want to reach level 4:

You ran the 'help' command on your localhost machine, now you need to use those commands to discover information on your own system. One of the help commands is 'ls' to list files, another is 'type' to type out the contents of a file. Some commands do not require any parameters, like 'help' or 'ls'. Some commands do require a parameter like 'type', so you would enter 'type filename' where filename is the name of the file you want to read.

```
localhost>
```
